## Acquisition Announcement

People Driven Technology is excited to announce the strategic acquisition of Industrial Technical Services (ITS) Ohio Physical Security Solutions division. This acquisition strengthens People Driven's Physical Security capabilities and accelerates the company's expansion into **Ohio and the surrounding Midwest region.**

The acquired ITS Ohio Physical Security team brings a deep bench of expertise across a wide range of physical security systems. Their capabilities align seamlessly with People Driven's mission to integrate modern physical security solutions with cutting-edge IT infrastructure. Together, we will continue delivering unified, scalable, and intelligent security systems tailored to the needs of today's organizations.

This move is particularly impactful for the state of Ohio. With ITS's existing operations based in **Pickerington**, the acquisition marks a significant milestone in establishing a **local presence** for People Driven's Physical Security practice in the Midwest.

By expanding into Ohio, People Driven will provide clients in the region with:

- Faster response times
- Localized and personalized support
- Regional expertise backed by national capabilities

The acquisition is now complete, and integration efforts are well underway. People Driven is committed to investing in the Ohio team, ensuring a smooth transition, and launching new, joint offerings that deliver added value to both existing and new clients.

This strategic expansion highlights our ongoing commitment to delivering comprehensive, people-centered security and IT solutions nationwide. We look forward to the opportunities this presents for our clients, partners, and team members alike.
